NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

FOR THE SIX MONTHS ENDED 30 JUNE 2017

1. BASIS OF PREPARATION

The condensed consolidated financial statements have been prepared in accordance with Hong Kong Accounting Standard 34 (“HKAS 34”) Interim Financial Reporting issued by the Hong Kong Institute of Certified Public Accountants (the “HKICPA”) as well as with the applicable disclosure requirements of Appendix 16 to the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (the “Listing Rules”).

2. PRINCIPAL ACCOUNTING POLICIES

The condensed consolidated financial statements have been prepared on the historical cost basis, except for certain financial instruments, which are measured at fair values.

The accounting policies and methods of computation used in the condensed consolidated financial statements for the six months ended 30 June 2017 are the same as those followed in the preparation of the Group’s annual financial statements for the year ended 31 December 2016.

In the current interim period, the Group has applied, for the first time, certain amendments to Hong Kong Financial Reporting Standards (“HKFRSs”) issued by the HKICPA that are mandatorily effective for the current interim period.

The application of the amendments to HKFRSs in the current interim period has had no material effect on the amounts reported in these condensed consolidated financial statements and/or disclosures set out in these condensed consolidated financial statements.

3. REVENUE AND SEGMENT INFORMATION

The Group determines its operating segment and measurement of segment profit based on the internal reports to the executive directors, the Group’s chief operating decision maker, for the purposes of resource allocation and performance assessment.

During the six months ended 30 June 2017, the Group’s reportable and operating segments are as follows:

- (a) the provision of securities brokerage and provision of financial, consultancy and corporate financial advisory services (“financial services”);
- (b) securities trading and investments; and
- (c) money lending.

Notes:

- (i) Investments in unlisted equity securities issued by private entities are held for an identified long term strategic purpose. The available-for-sale investments are measured at cost less impairment at the end of the reporting period because the ranges of reasonable fair value estimates are so significant that the Directors are of the opinion that their fair values cannot be measured reliably.

For the available-for-sale investments at cost less impairment, the management considers no objective evidence of impairment was identified at 30 June 2017 and 31 December 2016.

- (ii) As at 30 June 2017, the Group owns approximately 5.48% (31 December 2016: 5.48%) of the share capital of Co-Lead Holdings Limited (“Co-Lead”), an unlisted private company incorporated in the British Virgin Islands (“BVI”), with a fair value of HK\$100,000,000 (31 December 2016: HK\$100,000,000). The amount is unsecured, a substantial portion of which was settled subsequent to the end of the period. The average interest rate for the loan receivables as at 30 June 2017 ranged between 2% to 12% (31 December 2016: 5% to 36%) per annum.

The amount granted to individuals is based on management's assessment of the credit risk of the borrower by performing a background check (such as their profession, source of income and current position) and the borrower's repayment abilities by means of analysing the market value of the securities portfolio of the customers in the Group's brokerage accounts. The Group determines the allowance of impaired debts based on the evaluation of collectability and aged analysis of accounts and on the management's judgement, including assessment of the change of credit quality and the past collection history of each customer.

Included in the allowance for doubtful debts are individually impaired loan receivables with an aggregate balance of HK\$12,701,000 as at 30 June 2017 (31 December 2016: HK\$12,529,000), representing loans and interest receivable from independent third parties which have been in severe financial difficulties in repaying their outstanding balances. The Group does not hold any collateral over these balances.

In determining the recoverability of the loan receivables, the Group considers any change in the credit quality of the loan receivables from the date credit was initially granted, subsequent settlement and the fair value of pledged marketable securities up to the reporting date. In the opinion of the Directors, no further impairment is required in excess of the allowance for doubtful debt.

- (b) Deposits with securities brokers represented the funds deposits with the brokers' houses for securities trading purpose.

LITIGATION

(a) Updates on the previous disposal of shares in Shenzhen Fuhuade Electric Power Co., Ltd. (“Fuhuade”)

During the year ended 31 December 2011, the Group disposed of its 100% equity interest in Fuhuade to CNOOC Gas & Power Group (the “CNOOC Gas” or “Buyer”). The total consideration of the disposal of RMB1,037,642,000 (equivalent to approximately HK\$1,247,166,000) was payable in instalments, the payment of which was subject to finalisation and confirmation of the results of supplemental audit. In view of this, the Group made a provision for doubtful consideration receivable of HK\$93,132,000 for the year ended 31 December 2012.

As at 31 December 2013, the Group was still not able to secure a satisfactory conclusion on the supplemental audit. Under the circumstances, the Board is of the opinion that the timing and eventual outcome of the finalisation of the supplemental audit and hence the settlement of the outstanding instalments cannot be estimated with reasonable certainty. It is determined that the receivable amount should be fully provided for until such time as the eventual outcome can be reliably estimated. Accordingly, the Group fully wrote down the receivable amount of HK\$255,185,000, being the amount of consideration receivable amounting to HK\$358,921,000 as originally stated after deducting estimated other taxes payable arising from the disposal of the subsidiary of HK\$103,736,000, in the profit and loss account for the year ended 31 December 2013.

PROSPECTS

The global economy for the second half of 2017 will continue to face uncertainties resulting from the US macro policy, the progress of Brexit and global geopolitical conflicts. The Federal Reserve Board is expected to conduct a balance sheet reduction in September 2017, and the European Central Bank will gradually normalize its monetary policy, both events may have a major impact on the global economic and financial situation. From a domestic perspective, the macro economy in the PRC should be able to strike a balance between financial deleveraging and steady economic growth, so as to promote the supply-side structural reform. Thus, the economy and securities market in Hong Kong may continue to be affected by both international and domestic factors in the second half of 2017.

During the first half of 2017, many overseas stock markets have witnessed a market rally and the Hong Kong local market has also enjoyed a mild increase in the first half year of 2017 and a significant gain from the beginning of July till now. To be more specific, the Hang Seng Index (“HSI”) increased from around 22,100 at the beginning of January 2017 to around 27,800 in early August 2017. The domestic stock market in the PRC has remained stable under a prudent and balanced liquidity risk control and a series supervision. The influx of investors from the PRC into the Hong Kong stock market has also contributed to the two-year high of the HSI as well as the average PE ratio. Currently, the combined southbound turnover of the Shenzhen-Hong Kong Stock Connect and Shanghai-Hong Kong Stock Connect (the “Stock Connects”) programmes makes up approximately 5 percent of Hong Kong’s total market turnover and its importance is continuing to increase. This increase symbolizes the integration between the capital markets of the two regions. Approximately half the stocks listed in Shanghai

and Shenzhen and a quarter of Hong Kong listed stocks can be traded through the Stock Connects. They are primarily medium to large-cap companies, which represent over 80 percent of the three stock exchanges' combined market capitalization.

Accordingly, the Board is constantly seeking investment opportunities to enrich its investment portfolio and enhance the value of both the Company and its Shareholders. After the initial acquisition of the 30% equity investment in HECSC on 15 December 2016, the acquisition of the remaining 70% equity investment in HECSC was announced on 21 March 2017, and upon completion, HECSC will become a wholly-owned subsidiary of the Group.

The Board is cautiously optimistic of the growth of the financial services sector in both Hong Kong and the PRC, and has proceeded to enhance the capability of the Company to develop new businesses. The Group will continue to conduct fund-raising activities and invite competent staff to join the Group in order to enhance and expand its capability to cope with the ever-changing environment and opportunity as they arise. The Board will also seek to make investments in its infrastructure and keep up with developments in the sectors to maintain its competitive edge as well as stay ahead of other service providers.

PROPOSED SHARE CONSOLIDATION

For the past three years, the share price of the Company has been trading below HK\$1 and with a board lot size of 3,000 Shares, the Company is trading under HK\$2,000 per board lot. Certain brokerage houses and institutional investors have internal policies and practices that either prohibit them from investing in low-priced shares or tend to discourage individual brokers from recommending low-priced shares to their customers. In view of the above, the Board contemplates to conduct a share consolidation in order to (i) reduce the transaction and handling costs as a proportion of the market value of each board lot; and (ii) make investing in the consolidated shares of the Company more attractive to a broader range of institutional and professional investors and other members of the investing public. As at the date of this announcement, the Company has submitted its proposal to the Stock Exchange, but the structure and the timetable of the proposed share consolidation by the Company is subject to the approval of the Stock Exchange.
